

JORDAN ROSS ATKINS

Atlanta, GA | 678-300-5577 | jlate88@gmail.com

SUMMARY

Armed executive protection agent and self-taught AI builder. I run close-protection details for on-air talent at Fox News and CNN, plus entertainment and high-threat institutional clients, through a licensed, veteran-owned Atlanta firm. On post downtime over the last few years I taught myself to code from the terminal and built real systems: a robot running a local language model offline before that was common, an autonomous AI content and automation factory that routes work across multiple media providers and publishes finished products on its own, and a shipped numerology product. Seventeen years making and editing films before any of this, which is the eye behind the AI video work. I am looking for remote work in AI evaluation and training, AI content and video production, automation engineering, or technical support.

CORE SKILLS

- AI / ML: LLM output evaluation and audit, prompt engineering, agent systems and orchestration, AI behavior and instruction design, building structured verification frameworks
- AI media: image, video, and audio generation across Higgsfield AI, Google Veo, Kling, and Midjourney; multi-provider routing; hyper-real and animated commercial work start to finish
- Film and post: shooting, editing, color grading (DaVinci Resolve, CapCut), music editing and recording; seventeen years hands-on
- Code and systems: Python, Bash, HTML/CSS, Git, Linux. Self-hosted and local LLMs, Raspberry Pi hardware, terminal-driven builds, automation pipelines

PROJECTS

Ultronos, AI content and automation factory (2025 to now)

- End-to-end pipeline that takes a content job, routes each step to the right model across multiple image, video, and audio AI providers, then runs the result through an autonomous audit gate that checks quality before anything is released. Approved products auto-publish to Etsy and Gumroad with no manual step. It runs on its own.

Numen / Quintiform, numerology product (2025 to now)

- Designed and shipped a numerology product built on a structured calculation engine that turns birth data into full personalized written readings. Packaged and sold as a paid digital product.

J-5, personal robot and local LLM (2025)

- Built a robot from a Raspberry Pi with a camera for vision and my laptop running a local language model as the brain. Hand-coded the whole thing through the terminal, learning as I went, to get a private model running fully offline before that was common or easy.

LLM instruction systems (2026)

- Wrote large, versioned instruction frameworks for language models, over 10,000 words each, with my own verification and audit checks, version control, and behavior rules built in. Deep prompt engineering and AI behavior design.

AI commercial production (2025 to now)

- Trained under a mentor who produces AI commercial work. I direct Veo, Kling, Higgsfield, and Midjourney off a real filmmaking background, which is why the output reads like film instead of generated clips. Hyper-real and animated. An original animated short is in progress.

EXPERIENCE

Executive Protection / Armed Agent. C2 Security Group, Atlanta, GA. October 2023 to present.

- Close-protection and advance details for on-air talent at Fox News and CNN, entertainment and music clients, private and preschool campuses, and corporate and retail sites
- Real-time threat assessment and protective coverage with no margin for error; armed post and detail work across high-profile and high-sensitivity clients
- C2 is veteran-owned, BBB A+, and Voted Best of Georgia 2025, contracted to the Jewish Federation of Greater Atlanta, the Secure Community Network, and the MJCCA
- Georgia blue-card armed guard. Taught myself software and AI on post between assignments and shipped the systems above while working full duty

Filmmaker, Editor, and Music Producer. 2008 to present.

- Seventeen years shooting, editing, acting, and co-starring in short films, plus music editing and recording
- Hands-on command of framing, continuity, color, and timing; this is the craft eye that makes the AI video work hold up

Insurance Sales Closer. Legacy Health Insurance, Los Angeles, CA. 2018 to 2019.

- Number one closer five months running. Cold-call acquisition, needs analysis, and closing. Trained new reps

Earlier work (2003 to 2018)

- Saucier at Cafe Del Rey (fine dining, LA). Stone restoration with F.D. Atkins. Repossession scout at Wilder. Auto driver at Georgia's Elite. Line cook at Bones, Atlanta.

EDUCATION

High School Diploma. Alexander High School, Douglasville, GA.
