SUMMARY

Armed executive protection agent and self-taught AI builder. I run close-protection and advance details for Fox News and CNN on-air talent, entertainment clients, and high-threat institutional sites through a licensed, veteran-owned Atlanta firm. During downtime over the last few years I taught myself to code from the terminal and built things that actually run: a robot with a local LLM for a brain, an AI content factory that picks the right model for each job and posts the finished products to Etsy and Gumroad on its own, and a paid numerology product. I spent seventeen years shooting and editing film before any of this. That is why the AI video looks right. Looking for remote work in AI evaluation and training, AI video production, automation engineering, or technical support.

CORE SKILLS

- AI / ML: LLM output evaluation and audit, prompt engineering, agent systems, instruction design, output verification
- AI media: image, video, and audio generation in Higgsfield AI, Google Veo, Kling, and Midjourney; routing across providers; photoreal and animated commercial work, start to finish
- Film and post: shooting, editing, color grading (DaVinci Resolve, CapCut), music editing and recording; 17 years doing it
- Code and systems: Python, Bash, HTML/CSS, Git, Linux; self-hosted and local LLMs, Raspberry Pi, terminal-driven builds, automation pipelines

EXPERIENCE

Executive Protection / Armed Agent. C2 Security Group, Atlanta, GA. October 2023 to present.

- Provide close-protection and advance details for Fox News and CNN on-air talent, entertainment and music clients, private and preschool campuses, and corporate and retail sites
- Real-time threat read and coverage on high-profile clients. Georgia blue-card armed.
- C2 is veteran-owned, BBB A+, Voted Best of Georgia 2025, contracted to the Jewish Federation of Greater Atlanta, the Secure Community Network, and the MJCCA.
- Taught myself software and AI between assignments and built the systems below while working full duty.

Filmmaker, Editor, Music Producer. Independent. 2008 to present.

- 17 years shooting and editing film; acting and co-starring in shorts; music editing and recording
- Years of doing it by hand is why I know framing, continuity, color, and timing

Roofing Salesman / Closer. Southern Renovation Specialists, Georgia. 2020 to 2023.

- Sold and closed residential roofing contracts in the field; ran the full cycle from lead to close.

Insurance Sales Closer. Legacy Health Insurance, Los Angeles, CA. 2018 to 2019.

- #1 closer five months straight. Cold calling, needs analysis, closing. Trained new reps.

Saucier. Cafe Del Rey (fine dining), Los Angeles, CA. 2018.

- Worked multiple stations in a high-volume fine-dining kitchen.

Earlier work. Georgia, 2003 to 2017.

- Stone restoration, F.D. Atkins. Repo scout, Wilder. Driver, Georgia's Elite. Line cook, Bones (Atlanta).

PROJECTS

Ultronos, AI content and automation factory (2025 to present)

- Built an AI content factory. It takes a job, picks the right model for each step across image, video, and audio providers, runs an audit gate that checks quality before release, and posts approved products to Etsy and Gumroad on its own. I don't touch it.

Numen / Quintiform, paid numerology product (2025 to present)

- Wrote the math engine that turns someone's birth data into a written reading. Sold as a paid download.

J-5, offline robot (2025)

- Built an offline robot. Raspberry Pi with a camera for vision, my laptop running a local LLM as the brain, hand-coded from the terminal. Ran a private offline model before local LLMs were common.

LLM instruction systems (2026)

- Wrote 10,000+ word instruction sets for LLMs with their own self-check and audit rules, kept under version control.

AI commercial production (2025 to present)

- Direct Veo, Kling, Higgsfield, and Midjourney off a 17-year filmmaking background. Photoreal and animated. Original animated short in progress, trained under a mentor.

EDUCATION

High School Diploma. Alexander High School, Douglasville, GA.
