

JORDAN ROSS ATKINS

Atlanta, GA | 678-300-5577 | jlate88@gmail.com

SUMMARY

Armed executive protection agent and self-taught AI builder. I run close-protection and advance details for Fox News and CNN on-air talent, entertainment clients, and high-threat institutional sites through a licensed, veteran-owned Atlanta firm. On post downtime over the last few years I taught myself to code from the terminal and shipped working systems: a robot running an offline LLM as its brain, an AI content factory that routes jobs across image, video, and audio models and publishes finished products to Etsy and Gumroad with no human in the loop, and a paid numerology product. Seventeen years shooting and editing film before any of it, which is the eye behind the AI video work. Looking for remote work in AI evaluation and training, AI video production, automation engineering, or technical support.

CORE SKILLS

- AI / ML: LLM output evaluation and audit, prompt engineering, agent systems and orchestration, AI behavior and instruction design, structured verification frameworks
- AI media: image, video, and audio generation across Higgsfield AI, Google Veo, Kling, Midjourney; multi-provider routing; hyper-real and animated commercial work end to end
- Film and post: shooting, editing, color grading (DaVinci Resolve, CapCut), music editing and recording; 17 years hands-on
- Code and systems: Python, Bash, HTML/CSS, Git, Linux; self-hosted and local LLMs, Raspberry Pi, terminal-driven builds, automation pipelines

PROJECTS

Ultronos, AI content and automation factory (2025 to now)

- Takes a job, routes each step to the right model across multiple image, video, and audio providers, and runs an autonomous audit gate that checks quality before release. Approved products auto-publish to Etsy and Gumroad; runs unattended.

Numen / Quintiform, paid numerology product (2025 to now)

- Built a structured calculation engine that turns birth data into personalized written readings. Shipped and sold as a paid digital product.

J-5, offline robot (2025)

- Raspberry Pi with camera vision and a laptop running a local LLM as the brain, hand-coded from the terminal. Ran a private offline model before that was common.

LLM instruction systems (2026)

- Versioned instruction frameworks of 10,000+ words with their own verification and audit checks, version control, and behavior rules.

AI commercial production (2025 to now)

- Direct Veo, Kling, Higgsfield, and Midjourney off a 17-year filmmaking background, hyper-real and animated; original animated short in progress. Trained under a mentor.

EXPERIENCE

Executive Protection / Armed Agent. C2 Security Group, Atlanta, GA. October 2023 to present.

- Close-protection and advance details for Fox News and CNN on-air talent, entertainment and music clients, private and preschool campuses, corporate and retail sites
- Real-time threat assessment and protective coverage across high-profile and high-sensitivity clients; Georgia blue-card armed guard
- C2 is veteran-owned, BBB A+, Voted Best of Georgia 2025, contracted to the Jewish Federation of Greater Atlanta, the Secure Community Network, and the MJCCA
- Taught myself software and AI on post between assignments; shipped the systems above while on full duty

Filmmaker, Editor, Music Producer. 2008 to present.

- 17 years shooting and editing film; acting and co-starring in shorts; music editing and recording
- Hands-on command of framing, continuity, color, and timing; the eye behind the AI video work

Insurance Sales Closer. Legacy Health Insurance, Los Angeles, CA. 2018 to 2019.

- Number one closer five months running. Cold-call acquisition, needs analysis, and close; trained new reps

Earlier work (2003 to 2018)

- Saucier, Cafe Del Rey (LA fine dining). Stone restoration, F.D. Atkins. Repo scout, Wilder. Driver, Georgia's Elite. Line cook, Bones (Atlanta).

EDUCATION

High School Diploma. Alexander High School, Douglasville, GA.
